SUMMARY

With over **5+ years of hands-on experience**, I specialize in building innovative, scalable, and user-centric web applications that drive business success. My journey includes working across diverse industries and platforms—ranging from startups to enterprise-level projects—where I've delivered impactful digital solutions. I am passionate about crafting seamless user experiences and continuously refining my workflow with AI-powered coding tools to boost productivity and code quality.

Key Skills and Expertise:

- **Front-End Development:** Proficient in JavaScript, TypeScript, React.js, Redux, Next.js, and Vue.js to develop intuitive and engaging user interfaces.
- **Back-End Development:** Experienced in Node.js, Knex.js, NestJS, and Express.js for building robust and scalable APIs and business logic.
- **Database & API Development:** Strong understanding of MongoDB, PostgreSQL, and both SQL/NoSQL databases with deep expertise in building RESTful and GraphQL APIs.
- **Third-Party Integrations:** Skilled in integrating APIs for payments, social logins, geolocation, cloud storage, image/video processing, and more.
- **Team Leadership & Communication:** Proficient in mentoring interns and collaborating with cross-functional teams to ensure smooth project execution and continuous learning.
- **Client Interaction & Professionalism:** Developed strong interpersonal and communication skills, enabling effective collaboration with clients to understand their business goals and deliver customized solutions.

Philosophy and Approach:

I see myself not just as a developer, but as a **strategic partner in digital transformation**. My approach is rooted in problem-solving, innovation, and long-term impact. I focus on delivering high-quality, scalable, and maintainable code aligned with business objectives. By combining technical depth with a business-first mindset, I contribute meaningfully to every project's success and growth.

EXPERIENCE

Freelancer

Self-Employed

📅 02/2025 - Present

- As a freelance Full Stack Web Developer, I have successfully delivered numerous projects across various domains, working with clients globally. My freelance work includes building and maintaining dynamic e-commerce platforms using Shopify and WordPress, as well as developing scalable, high-performance web applications with NestJS and other modern technologies.
- I've handled the full development lifecycle—requirement gathering, UI/UX design, coding, deployment, and maintenance—while ensuring SEO best practices, performance optimization, and responsive design standards. My ability to adapt to new tools and frameworks quickly has helped me deliver quality software solutions tailored to diverse client needs.
- **Technologies:**
 - Frontend: React.js, Next.js, Vue.js, JavaScript, TypeScript
 - Backend: Node.js, NestJS, Express.js
 - CMS & Platforms: Shopify, WordPress
 - Databases: MongoDB, MySQL, PostgreSQL
 - Tools: RESTful APIs, GraphQL, Git, n8n, AI-enhanced development

Full Stack Developer

Matlab Infotech

📅 08/2024 - 01/2025 📍 Surat, Gujarat, India

Worked as a Full Stack Web Developer at Matlab Infotech, where I designed and implemented scalable, efficient, and high-performance web applications. My role encompassed both front-end and back-end development, collaborating with cross-functional teams to build seamless, user-friendly applications. I focused on optimizing application performance, developing RESTful and GraphQL APIs, and ensuring smooth workflows through effective teamwork. Continuously eager to learn new technologies, I leveraged AI to accelerate my coding process, enhancing efficiency and productivity.

- Frontend: React.js, Vue.js, Next.js, TypeScript, JavaScript
- Backend: Node.js, Nest.js, Knex.js, Hasura
- Databases: MongoDB, PostgreSQL, MySQL
- Tools & Platforms: n8n.
- During my tenure, I also developed professionalism, honed my skills, and improved my ability to communicate effectively with clients. Additionally, I took on the responsibility of mentoring interns and trainees, guiding them in their learning process while managing my development tasks. Through these experiences, I contributed to the success of various projects, consistently delivering high-quality software solutions.

EXPERIENCE

Full Stack Web Developer

HMR Technologies

📅 03/2023 - 08/2024 📍 Surat, Gujarat, India

As a passionate Full Stack Web Developer with hands-on experience, I have honed my skills through a 6-month internship at HMR Technologies and continued growth during my 1.6-year work experience. Throughout my journey, I've gained a solid understanding of both front-end and back-end technologies, enabling me to build robust and scalable web applications. I am proficient in designing and developing seamless user interfaces, optimizing server-side logic, and creating efficient database structures to deliver high-performance web applications. Whether it's building user-centric features or integrating APIs, I am driven by a strong commitment to continuous learning and delivering top-quality solutions. With an eye for detail and a passion for coding, I am always eager to take on new challenges and contribute to the success of dynamic teams.

- Frontend: React.js, Vue.js, Next.js, Typescript, JavaScript
- Backend: Node.js, Nest.js, Hasura
- Databases: MongoDB, PostgreSQL, MySQL
- Other Technologies: n8n, Full Stack Development, RESTful APIs, GraphQL.
- With an eye for detail and a passion for coding, I am always eager to take on new challenges and contribute to the success of dynamic teams.

Shopify | Wordpress | Frontend Developer

Self-Employed

📅 03/2020 - 04/2023

Worked with global clients to build and maintain custom **Shopify** and **WordPress** websites. Designed responsive, SEO-optimized UIs using **HTML5**, **CSS3**, and **JavaScript**.

- Developed custom Shopify themes and Liquid templates for e-commerce sites.
- Built mobile-friendly WordPress websites using Elementor and custom code.
- Created pixel-perfect UIs with HTML/CSS, following modern design practices.
- Integrated third-party APIs, payment gateways, CRMs, and analytics tools.

EDUCATION

Bachelor's of Computer Applications (BCA), Information Technology

Bhagwan Mahavir University, Surat

📅 04/2020 - 04/2023

PROJECTS

Live Beach Network - Ibn.live

Role: Jr. Software developer

- Technologies: Nextjs, TypeScript, Routing, Redux, Hooks
- Responsibilities: Frontend Development, API Integration, Debugging, Code Review, Testing.

Coachvantage - Team Project.

Role: Jr. Software developer

- Technologies: Vuejs, Routing, Redux, API Integration, Code Refactor.
- Responsibilities: Frontend Development, API Integration, Debugging.

Project: Content Generator AI.

Role: Jr. Software developer

- Technologies: Reactjs, Routing, Redux, API Integration.
- Responsibilities: Frontend Development, API Integration, Debugging.

Neo - Fleet Management.

Role: Jr. Frontend Developer.

- Technologies: Nextjs, Routing, Redux, API Intigration.
- Responsibilities: Frontend Development, API Integration, Debugging.

PROJECTS

CrickEdge | Sporta-Backend - Cricket | Football - Product Base Project of Matlab Infotech

Role: Jr. Frontend Developer.

- Technologies: Nextjs, Routing, Redux, API Intigration.
- Responsibilities: Frontend Development, API Integration, Debugging.

Hobson

Role: Jr. Frontend Developer.

- Technologies: Nextjs, Routing, Redux, API Intigration.
- Responsibilities: Frontend Development, API Integration, Debugging.

LiveCare Backend

Role: Sr. Backend Developer.

- Technologies: Prisma ORM, Firebase, Google OAuth, Vultr storage, and implemented JWT authentication, NodeMailer.
- Responsibilities: Architected and developed a healthcare management system implementing patient care features including medicine tracking, prescription management, patient-guardian relationships, NFC tag integration, notification systems (FCM), calendar scheduling, and alarm management while ensuring secure authentication and real-time data synchronization using modern backend technologies.

Funeral Service Backend

Role: Sr. Backend Developer.

- Technologies: NestJS, Prisma (ORM), PostgreSQL, AWS S3, Docker, Passport.js.
- Responsibilities: Built and deployed scalable backend services using NestJS, Prisma, PostgreSQL, Docker, and AWS S3 with secure authentication via Passport.js.
